THE NEW MULTIFUNCTIONAL COOKING SYSTEM FOR
CATERING

ambach®

“

Compact,
flexible and
complete.
Exactly
what I need.

”

The latest innovative and intelligent cooking system from Ambach IQ850 is designed for dynamic kitchens and catering facilities with limited space, but that wish to offer the widest possible menu choices.

At **just 800 mm wide**, this compact, multi-functional and simple to operate cooking system is brimming with our most advanced cooking intelligence and cutting edge technology.

Designed to provide complete cooking flexibility and handle the most diverse menus and work-loads, IQ850 saves time and guarantees **excellent cooking results**, providing complete operational capability to any commercial kitchen.

Thanks to its linear construction this new intelligent and advanced cooking system **can be integrated seamlessly into any configuration** of our Chef 850 equipment range.

ROBUSTNESS

HYGIENE

CORE PROBE

BUILD UP YOUR KITCHEN

YOUR KITCHEN, JUST THE WAY YOU WANT IT.

Designed to be positioned where you really need it, the IQ850 means you can say goodbye to stand alone braziers in your kitchen. **Reduce your operational footprint by up to 30%** and increase efficiency, cooking flexibility and productivity by placing your multi-functional cooking system right where you need it in your cook line. Create, personalise and evolve your kitchen and menus with the IQ850, together with a complete range of complimentary modular equipment options from our Chef 850 range, including one-piece top executions.

TOTAL FLEXIBILITY, AT YOUR SERVICE.

Setting new standards in catering flexibility and performance, the Ambach IQ850 **multi-zone system** features a duplex compound cooking surface with **two cooking zones** that allow you to cook different foods simultaneously. For precise temperature control the IQ850 has a **core probe** that automatically reads the surface temperature at four different points. From braising to frying, steaming and pasta cooking - as well as low-temperature **overnight applications** - the IQ850 provides a total solution.

MAXIMUM HYGIENE.

As with all units in the Chef 850 range, IQ850 offers the highest levels of hygiene, **reducing both cleaning programmes** and the use of materials to a minimum. The IQ850 achieves this through its **Ambach Assisted Cleaning System (AACS)**, an efficient, semi-automatic cleaning programme that provides operators with a step-by-step process to remove stubborn food deposits. This system, together with a **convenient pullout spray hose**, enables all cooking surfaces to be cleaned easily and effectively, guaranteeing maximum hygiene levels.

Catering for 150-cover "a la carte" restaurants.
A modular cooking block with 5 elements and hygienic seamless joints.

THERMOBLOCKS
2.0

INNOVATION

PERFORMANCE

POWER, EFFICIENCY AND PERFORMANCE

IMPROVED EFFICIENCY THROUGH AMBACH 2.0 THERMOBLOCKS.

The future of flexible cooking has arrived and thanks to a unique system of second generation thermoblocks, the **IQ850 reaches operating temperatures quickly** and provides unrivaled **energy performance**.

Perfect cooking, to satisfy the most discerning of chefs is achieved through even heat distribution on the complete cooking surface. This together with **Power Save**, a unique protection system developed by Ambach, enables the griddle to work effectively at low temperatures, without undergoing thermal shock during the heat up process; allowing the cooking of frozen fish and meats.

MIRRORED SURFACE, BRILLIANT PERFORMANCE.

The innovative IQ850 features a duplex, compound cooking surface with a non-stick finish, meaning the unit can be cleaned quickly and easily prepared to handle different food types. The mirrored surface provides considerable advantages in terms of efficiency, as **it provides even heat distribution and reduces heat dispersion**, ensuring **excellent cooking results** and the **perfect browning** of all meats.

RECORD BREAKING PRODUCTIVITY.

With a power to cooking surface area ratio of **kW/dm² = 0.77** the IQ850 sets a new standard in performance technology.

Internal surface temperature distribution.

PERFORMANCE

Ambach IQ850 (Model 8IQ/80)

Omelettes	200/h
Hamburgers	200/h
Goulash (browning without reducing)	56 kg/h
Goulash	17,5 kg/h
Egg pasta (cycles of 10 minutes)	21 kg/h
Chips (9x9 block, not pre-cooked)	35 kg/h
Farro soup with chickpeas	40 kg/h

Ambach thermoblocks 2.0 provide robust, high performance cooking with even heat distribution.

ENERGY SAVING

ECO-MODE FUNCTION REDUCES ENERGY WASTE.

The new IQ850 cooking system is powerful, yet energy efficient. Thanks to Eco-Mode, you **save energy** as the unit goes into an idle state **when not in use**, but returns to operating temperature quickly.

LESS ENERGY CONSUMPTION THANKS TO AMBACH THERMOBLOCKS 2.0.

The improved efficiency and effective heat distribution of our second generation thermoblocks reduces energy consumption. The unit's unique **Power Save protection system** allows you to cook at lower temperatures.

MIRRORED BASE, PROVIDES LOW HEAT DISPERSION.

Duplex compound well reduces heat dispersal. Non-stick bottom concentrates energy to the cooking zone and doesn't radiate heat, meaning **less heat dispersal**, providing considerable energy savings and reduced running costs.

An example of a cooking block for a catering kitchen serving 300 people. Three elements in a hygienic one-piece top.

AMBACH
EASY ACCESS

ONE-TOUCH

SINGLE TOUCH START.

The new Ambach Navigator control panel is **simple and intuitive**. There is no need for complex instructions and manuals, simply follow the easy to read icons to operate the IQ850 your way by selecting either manual mode, or via the selection of pre-set recipes and programmes.

MANUAL OR AUTOMATIC, IT'S YOUR CHOICE.

The innovative technology in the Ambach Navigator touch screen control panel offers **an infinite range of cooking options**. You can choose to set your own individual parameters, or follow one of the many recipes suggested by Ambach. With Ambach Navigator you can select the required cooking times and temperatures, or choose from one of **over 200 cooking solutions** in the memory. The control panel allows you to store settings and recipes and make all of the changes you want at any time. In addition, it allows you to activate the semi-automatic Ambach Assisted Cleaning System (AACS).

SEE EVERYTHING AT A GLANCE!

The **ergonomic and robust** design of the Ambach Navigator touch screen control panel, was created to both **maximise and ease the work of chefs** and kitchen personnel. Unlike other machines, the IQ850 is unique as its control panel is not fitted into the surface of the unit. Thanks to its raised position and swivel function the monitor remains **visible from any angle in the kitchen**, giving more freedom of movement to the operator while maintaining complete control over each phase of the cooking process.

QUICK SERVICE, THAT'S A GUARANTEE.

The IQ850 features a hole in the center of the well that allows you to empty the unit quickly and easily when cooking is complete. It is also possible to request a trolley for transportation and distribution.

EASY SERVICING AND MAINTENANCE.

With Ambach equipment, maintenance is never a problem! As with all Ambach products including the complimentary Chef 850 range, servicing is completed easily and quickly. Thanks to our **Easy Access** design innovation, access panels can be removed without the need to move the equipment, even when the unit is inserted into a one-piece hygienic top configuration.
